

# Blackfoot map notes

**O** distinct LIVE tree   **X** distinct DEAD tree, such as a root stock or tall (5m) stump

the cup symbol on the map indicates a water station the centre of gravity of the symbol is the location of the water. Please use water only for drinking.

**MARSHES** – some are wet, while others might only be defined by their vegetation. A black line round a pond or marsh means it is **uncrossable**

**TRAILS** – One indistinct trail shown on the map and used for courses 1 and 2 on both days has occasional posts with red and yellow flagging on the top to make it easier to follow. Most of the trails in the Middle Event area that used to be on the map have almost disappeared and have been taken off the map so you may come across some unmarked trails. In the Long event area more of the trails remain but some are quite indistinct.

**SCALE:** map scales for all age categories are shown on the “Course Lengths and climb” page

All maps 2.5m contours.

## **CREDITS:**

*Field 7* was mapped by several amateur mappers in 2008.

Updated using 2018 LiDAR data in 2024.
